

Amendments To The Specification:

Please add the following three new paragraphs beginning at page 7, line 7, after the paragraph which begins as “FIGURE 14 is a top plan view...” and before the heading which reads “Detailed Description of the Preferred Embodiment”, as follows:

FIGURE 15 is an inset side elevation view of the invention, as in Fig 1A, showing the alternate embodiment of the conveyor means being a screw type conveyor.

FIGURE 16 is an inset side elevation view of the invention, as in Fig 1A, showing the alternate embodiment of the conveyor means being a bucket type conveyor.

FIGURE 17 is an inset side elevation view of the invention, as in Fig 1A, showing the alternate embodiment of the conveyor means being a vibrating bed type conveyor.

Please replace the paragraph beginning at page 7, line 22, which begins as “FIG 1A is an overall perspective view of the apparatus 20,...” with the following amended paragraph:

Fig 1A is an overall perspective view of the apparatus 20, showing the major subsystems and their spatial relationship. Referring to Fig 1A, the preferred embodiment of the wine pomace extraction apparatus 20 comprises a support cart 22, a belt conveyor 24 as the conveyor means, and mechanical sweeper 26. Other embodiments of the invention may utilize other conveyor means including, but not limited to screw type 190, as in Fig 15, bucket type 192, as in Fig 16, or vibrating bed types type 194, as in Fig 17.
